

Dear FCC,

Please keep K-Love(91.3) on the radio! Do not let LPFM become top priority over current FM translators. K-Love is family friendly, positive, and source of encouragement to many people-me included. K-love also gives people a second chance at life by spreading the good news of Jesus Christ through music, the universal

language. And for others who are fellow believers such as myself, K-love is a source that strengthens our faith. Please don't take that away. Much music and entertainment played on radio stations or TV does not build up character, but often takes part to destroy it. Not K-Love! They encourage uplifting qualities such as love, honesty, truth, honor, and equality. KEEP K- Love on the air. "If it ain't broken and it ain't made anybody broken, don't fix it."

Sincerely,

Kristi Osborne
